

IN AND OUT OF BOUNDS

by ARISTIDIS ANTONAS

creation 2004

European project between France, Greece and Germany
supported by the A.F.A.A.
creation scheduled for Autumn 2004
general public

text by Aristidis Antonas
for five actors

Antonakaki Katerini, Jorand-Briquet Emmanuel, Moreau Christine, Rodriguez-Jorda Philippe, Sachy Bertrand
accompanied by a musical composition by Stéphanos Vassiliadis
for a cellist and an electro-acoustic band

We will work with a different cellist in every country. The cellist will be able to improvise on the original composition. Always originating from the same theatrical object, this process will allow us to both give new colour to each performance and feel the nuances of the approach.

As in our previous performances
("Thread", "Threshold", "I am going" and "Landscapes")
a first phase will give rise to an installation
– investigating the mechanisms of writing and performance

this first phase will be performed in March 2004
at the Comédie de Picardie in Amiens
for a small audience of those interested in the creation process
